Stormwater Management – Act 167 - Pennsylvania's Storm Water Management Act (Act 167) was enacted in 1978. This Act was in response to the impacts of accelerated stormwater runoff resulting from land development in the state. It requires counties to prepare and adopt watershed based stormwater management plans. It also requires municipalities to adopt and implement ordinances to regulate development consistent with these plans.

Note: As of January 1, 2014, the State requires any construction that results in impervious surface to be monitored. Residential construction that exceeds 1,000 sq. ft. of impervious surface will require a stormwater management plan that must be approved by an engineer. This should accompany any plans submitted by the owner or contractor.

*If addition is for bedroom(s), the owner must contact the CCHD first for approval (EDU's - equivalent dwelling units) for sewer and approved by CCHD before a permit can be issued by the Township Code Enforcement Officer.

NOTE: Additional Fees for permits issued after the Zoning Officer's issuance of a violation notice for commencement of work without a required permit will be \$50.00 or 50%, whichever is greater. In no event, however, shall the additional fee for any one permit exceed \$150.00. (Resolution 12-1998).

Electrical Exemption – Amish: An electrical exemption form must be filled out and notarized before a building permit will be issued.

- Permit becomes invalid if work is not commenced within 180 days of issuance
- ...or, work is suspended or abandoned for more than 180 days after work begins
- Permit holder may request an extension to begin construction...approval must be in writing
- No permit may be valid for more than 5 years from its issue date
